

WHITEPAPER

VERSION 4.0

REV. NOV 2023

EGTOKEN.IO

EG is a blockchain tech startup founded in 2021, with the express goal of unlocking social impact through innovative incentives and powerful products.

First launched under the rallying cry “Elongate”, the first version of the EG token exceeded \$1M market cap in 24 hours and \$600M market cap in 5 weeks. Dedicated to leveraging virality and current trends to make social impact fun and exciting, the community has donated over \$3.7M to worthy causes and partnered with major brands.

Rebranded for 2023 investors, EG is committed to finding the good in crypto, and doing good with it.

MISSION

The EG mission is to leverage community action and blockchain technologies to grow a global movement that defies the status quo and makes profitability intrinsically linked to positive social impact.

VISION

The EG team is a group of dreamers & builders who want the best for the planet's future. We want to bring crypto adoption to the mainstream by creating innovative decentralised products.

We launched the cryptocurrency as a uniting force, and over 400,000 investors globally have joined their voices to ours. In less than a year, we've delivered over \$3,700,000 to worthy causes, proving what's possible when people come together for a common goal.

Now we are building the tech of the future. From finance to entertainment to human connection, these industries exploit human psychology to extract value. We aim to pioneer a new social transformation: value placed back in the hands of the creators, profit merged with purpose, and capital delivered to the ones who need it most.

EG PILLARS

-  **Ignite** a social transformation
-  **Build** transparent pathways to capital for earning & giving
-  **Empower** people to create a sustainable world

EG COMMITTMENTS

-  **Community**
Using a model of community leadership, EG puts the needs and voices of the community first.
-  **Transparency**
Based on open source code and accountability, EG makes clear what work is being done and how decisions are made.
-  **Impact**
Everything done must be for the cause of making the most positive impact possible.

EG VALUES

-  **Justice**
Capital follows value, not the other way around. The creator pouring their soul out gets what they put in, and a worthy cause gets a piece too.
-  **Connection**
Human connection drives us, and the technology we build should unite rather than divide. Gone are the days of profit-seeking algorithms making us hate each other for clicks.
-  **Sustainability**
Zero mining, and a carbon-negative footprint. We'll leave the planet better than we found it. It's that simple.

SOCIAL IMPACT

Powered by the EG community, Social Impact at EG is fundamental to everything the company does.

EG provides non-profits, social entrepreneurs, and passionate supporters the tools to raise, coordinate, and invest capital through the blockchain. Funding goes further, connections run deeper, and access is available to all.

\$3.7M+

donated in direct impact
where it has been needed
most.

up to 0.05%

of trading fees from
EGSwap is used to
BuyBack the EG Token.

THE EG MODEL

Donors passionate about seeing their contributions actually at work donate to the EG Social Impact wallet directly. From there, every dollar is tracked through the blockchain to the point of impact, and the recipients document the impact and share it back to the community and the wider world.

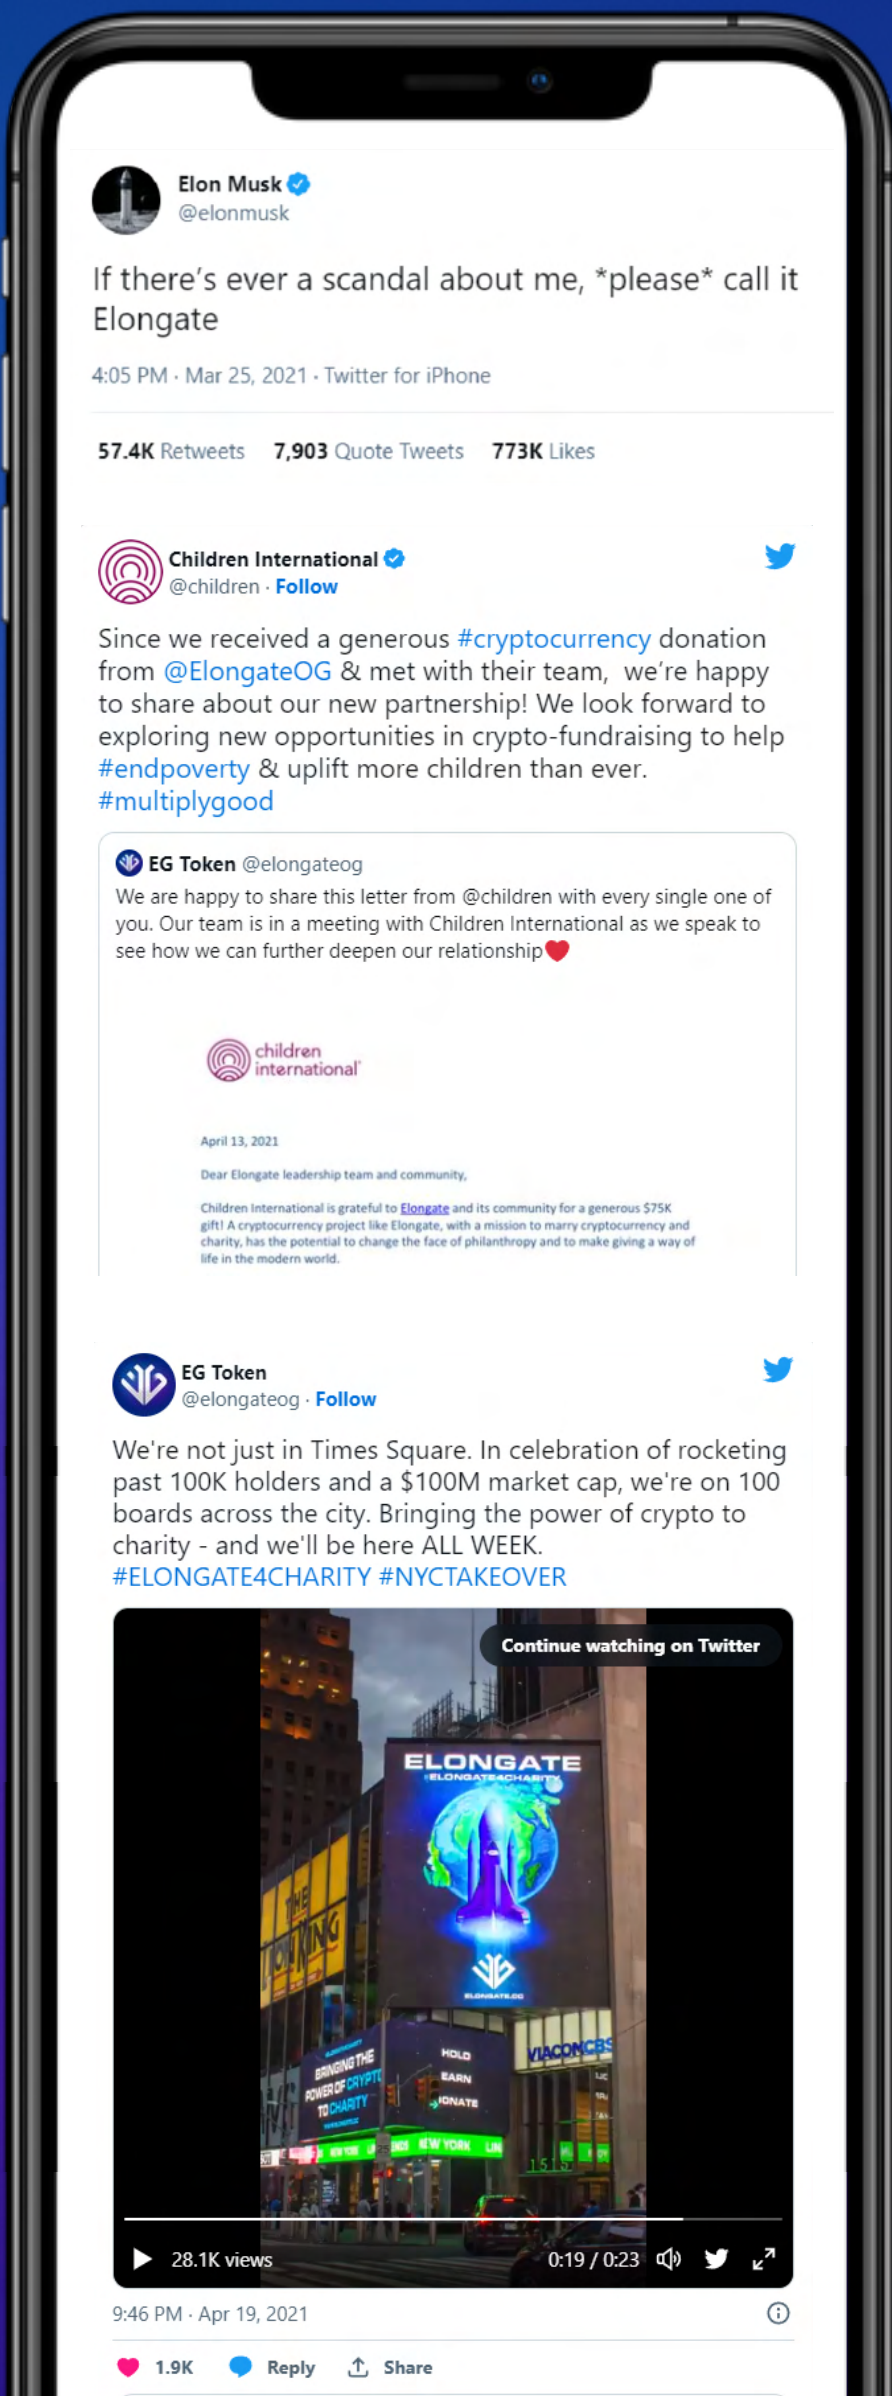

Impact coordinators of all scales connect with us to receive grants and bring the efficacy of crypto to their communities, and the EG community mobilizes to identify and celebrate volunteers who are making a difference.

Retail investors who trade the EG token fund social impact with 5% of the token fees, and our committed partner HeadsTails has pledged a royalty to EG social impact initiatives from their revenue.

SUSTAINABLE DEVELOPMENT GOALS

The 17 Sustainable Development Goals (SDGs) are an urgent call to action for all people, in a global partnership. EG recognizes that ending poverty and other deprivations must go hand-in-hand with strategies that improve health and education, reduce inequality, and spur economic growth - all while tackling climate change and working to preserve our oceans and forests.

MILESTONES & ACCOMPLISHMENTS

ACTION AGAINST HUNGER

April 15, 2021

Lorenzo Andree
Elongate

Dear Lorenzo and the Elongate Community,

We would like to thank you and the entire Elongate Community for your generous donation of \$245,000. We are truly grateful for your support of our mission to end hunger. Your community's creativity, generosity, and ability to make the world a better place inspires us - and makes us 🥰 - as we learn and venture into the cryptocurrency world.

As the world's hunger specialist, Action Against Hunger is focused exclusively on ending hunger. For more than 40 years, our teams have been on the front lines, treating and preventing malnutrition in the face of natural disasters, conflict zones, and even pandemics. Last year alone, we supported 17 million people in more than 45 countries.

Around the world, hunger is growing. Conflict, climate change, and the COVID-19 have driven more families into poverty and food insecurity. Your donation helps us stem the tide - you are supporting our work to treat malnourished children, increase access to clean water and health services, and improve livelihoods. Together, we are helping mothers to earn and save their incomes, farmers to plant seeds and learn new growing techniques, and health workers to reach more children who need care. With your gift, you are saving lives and giving hope to people in need.

With our partnership with [@TheGivingBlock](#), we are launching the [#ELONGATExTGB](#) campaign to ignite a social impact transformation.

Let's change what it means to use crypto for good.

The EG Salesforce Crypto Lightning Exchange is a first of its kind, fully non-custodial, platform-native wallet management system within the Salesforce Cloud and CRM platform. Over 150,000 companies on Salesforce can now manage multiple crypto wallets through the easy to use dashboard, swap between cryptocurrencies on-chain, and easily transfer crypto between Salesforce accounts.

Features:

- 1% of Swap/Transfer volume goes to **Buyback** of EG token.
- Crypto **Swap & Transfers** linked to Salesforce records.
- Integrated with **Ox and linch** APIs.
- **Self-hosted** Blockchain adapter.
- Passed Salesforce **security review**.
- **Segregated Witness** - Supports modern Bitcoin/DEFI protocol features such as bc1 addresses that reduce your transaction fees.
- **Attach address to any record** - Use Lightning App Builder to attach a unique set of Bitcoin addresses to any record whether it is a Case, an Account, or an activity.
- **Salesforce-Native** - Built with Apex and Lightning Web Components allowing the users to leverage all automation features of the Salesforce Platform.

BURN PARTY

Burn.Party, with its integration with Chainlink, is a unique multi-chain token burn platform supporting community-organised token burns in a trustless manner.

Features:

- Decentralised multi-chain token burn platform.
- The place to burn all EG buyback tokens.
- Supports any token on the Binance Smart Chain and Ethereum.
 - Support for Polygon, Avalanche and Fantom to be made available in future.
- Integrates Chainlink Keepers Network to automate & decentralise the token burns.
- For every successful Burn Party that results in a Token Burn, the EG Burn Party Platform donates Meals to those that are in need using third parties and EG's network of volunteers.
- The platform also has the ability to generate ad revenue for the token.

BURN PARTY

EG Burn Party, that integrates with Chainlink Keepers Network, is a revolutionary new platform that allows holders and project creators to initiate, organize, and share deflationary token burning events, known as a Burn Party, for some of the most popular cryptocurrencies on the BSC and Ethereum network.

[Learn More](#)

> burn.party

EGMIGRATE

A migration solution for projects and token holders to upgrade smart contracts and swap old tokens for new ones. This solution was used to upgrade EG from v1 to v2 and can be used to support any token on Binance Smart Chain or Ethereum blockchains. Projects can use EG's technology and experience to upgrade their smart contracts and seamlessly provide new tokens to their holders.

Features:

- 100% fees from EGMigrate go to EG Token Buyback.
- Holders can swap old tokens for new ones in a single transaction.
- Secure - Security Audit completed by Vidma.
- Consolidation - Automatic calculation/conversion if supply is being reduced.
- Supports any BEP-20 or ERC-20 token.
- Metamask & WalletConnect supported.
- Compatible on desktop and mobile browsers.

Learn more

> egtoken.io/egmigrate

EGTRADE

EGTrade is a Token Swap and charting solution which can be connected to any Decentralised Exchange (DEX) like PancakeSwap or EGSwap. EGTrade also allows you to buy BNB directly via FIAT. In as little as 5 minutes, users can verify to purchase BNB, then swap for EG or any other token all in one place.

EGTrade is also offered as a white-label Token Swap and Charting solution which can be customised and added to any project's website providing a better alternative to free unsecure widgets which are full of adverts.

Projects interested in forking this for their project can contact us.

Features:

- 100% Sales from the white-label solution go to EG token buyback.
- Supports EG, BNB, BUSD and any BEP-20 token.
- Optimised for mobile browsers.
- Dark and Light mode support.
- MetaMask & WalletConnect support.
- Ability to buy BNB directly (including users in USA).
- Integrated price chart with 24H, 1W and 1M pricing.

Learn more

> egtoken.io/egtrade

GATOR GANG NFT COLLECTION

The Gator Gang is a collection of unique collectible Gators. Membership in the Gator Gang unlocks direct rewards and other exclusive perks.

Features:

- Listed on TofuNFT and Rarity Sniper.
- Exclusive presale whitelist access for all future NFT collections.
- Early access and testing of future ecosystem tech betas.
- Access to exclusive Discord roles and channels.
- Future perks and access will be awarded exclusively to Gator Gang members.
- Exclusive Access to Gator Gang VIP Club in the TCGWorld Metaverse + future in-game utility.

The team is planning to release an NFT Staking platform, where holders can earn an exclusive share of token revenue just by holding Gators. Legendaries and collecting all squads will unlock multipliers. The team plans to burn a significant remainder of the unminted Gators, skewing towards the most common Gators and remove them from circulation.

EG BLOCKCHAIN AGENCY

Branding, design, smart contract development, tech stack & architecture – your blockchain startup has a lot of needs. Tap into the EG expertise and fast-track your project to success. 10% of revenue goes to EG community through token buybacks.

Features:

- 10% of revenue goes to EG token buyback.
- NFT & Smart Contract Development.
- Tokenomics.
- Whitepaper Drafting.
- Backend/API Architecture & Design.
- Testing & Deployment.
- Smart Contract Audits.
- UX & Website Design.
- Branding & graphic Design.
- Copywriting & UX Writing.
- Blockchain Market Email Outreach.

Experienced

From traditional banking to game design to DeFi, tap in to our decades of experience in building rock-solid products and world-class solutions.

Professional

Let's be honest – sometimes crypto seems like it's run by a bunch of kids. We bring a level mindset and a rigorous scrum process to our work, tried-and-tested.

Impactful

As part of the EG Family, we are committed to making a positive impact in the world. A portion of everything we earn goes back to fuel our social impact token.

BLOCKCHAIN ALLIANCE FOR GLOBAL GOOD

EG is the founder of BAGG, an alliance of blockchain companies with the goal to unite blockchain and cryptocurrency companies together to incentivize inherent and integrated social impact, and change the world through joint ventures.

BAGG champions the 17 Sustainable Development Goals, and builds networks and reach to improve as many of them as possible. We believe in coming together to make the world a better place, for the common good, and putting the human above the token.

Features:

- Share Expertise - The crypto world can be a bear to navigate. By pooling our resources everyone can succeed.
- Link Networks - It's all about who you know. We're stronger together when we find ways to support each other.
- Cross-Promote - Savvy investors are looking for savvy investments. There's more than enough to go around when we connect our communities.
- Stand Out - Membership is no small feat. Everyone in the alliance stands for something different, but we all stand together.

TOKEN FEATURES

No Lopsided Liquidity

Adding Funds to a liquidity pool using Auto Buy Backs and SwapAndLiquify doesn't work if it's one sided. To support these lopsided liquidity dumps, these features also used the community to pay for the gas by piggy backing on their Buy/Sell transactions. This destroys the value of the token in the same way as big sell-offs do.

No Reflections

Reflections as a way of generating "passive income" is a concept which is slowly going out of fashion. It needs high token taxes to support the reflections model as well as continuous high token volume to be effective long term. Reflections are also not supported by many major exchanges which is also a drawback. EG V2 lowers the tax on Buy and Sell to support community driven initiatives, removes the tax on transfers, gets rid of reflections and also stops the auto burn.

No Secrets

EG is a community run token where community working groups control all aspects of the project. Anyone is able to contribute to the success of the project and can also get rewarded for it. A pool of 5% of Token Supply is set aside for Community Development (Prizes, Rewards, Promotions etc), 2.9% of supply is reserved for Marketing and a further 3% reserved for providing cross-chain liquidity to other blockchains in future. Details of all wallets and token holders is made available publicly for all to see.

No Centralized LP Token Holding

Devs on many projects keep hold of the LP Tokens to withdraw liquidity at a later date to private wallets. Eg V2 has locked majority of its liquidity and all details are made available to the public. The process of adding new liquidity and removing liquidity is done transparently.

Open Source

The long term aim for new features is to make it publicly accessible so anyone can see, modify and distribute the code as they see fit. This will attract a wider talent pool to the project. We encourage any developer interested in creating software, widgets, charts or adding utility to the token to reach out to the team.

No Auto Burns

The token supply is fixed at 6 Billion. There will be no Auto Burns but manual buybacks & token burns will be done as per market conditions.

FEE MANAGEMENT

The EG Smart Contract Accumulates 5% fee from every Buy & 5% fee from every Sell transaction. No fee is collected from transfers.

This 5% fee is distributed to the following 5 wallets, which have been configured in the smart contract.

- Marketing Wallet: 20%
- Liquidity Wallet: 20%
- Tech Wallet: 30%
- Donations Wallet: 10%
- Staking Rewards Wallet: 20%

Each of these wallets is looked after by a community working group. Apart from the Staking Rewards Wallet, the EG Tokens in all other wallets are manually converted to BNB at a suitable time without putting negative price pressure on the chart.

The smart contract also has an “AutoSell” feature which can be turned ON at times of good volume in the market. When “AutoSell” is on, the EG Tokens accumulated in the smart contract are automatically converted to BNB.

FUNDING STRUCTURE

5% EG Token Buy Fee

- 30%: Tech fund
- 20%: Marketing fund
- 20%: Liquidity fund
- 20%: Gator Gang NFT Staking Reward fund
- 10%: Social Impact fund

5% EG Token Sell Fee

- 30%: Tech fund
- 20%: Marketing fund
- 20%: Liquidity fund
- 20%: Gator Gang NFT Staking Reward fund
- 10%: Social Impact fund

- 100%: EG Token buyback & holder rewards

Revenue from trading fees on EGSwap

- 0.02%: EG Token buyback & holder rewards

Revenue Distribution from EG Blockchain Agency

- 10%: EG Token buyback & holder rewards

"Holder rewards"

*can be token staking rewards,
Gator Gang staking rewards,
or manual token burns.*

COMMUNITY LEADERSHIP

As part of a restructuring, EG will become more decentralized and controlled by the community, in coordination with partners at HeadsTails (HT). The community will act as the decision-makers, and HT will function as the executory partner to carry out the determined tasks.

Working groups of community members will be created to oversee all operational wallets and govern how funds are utilized. Experts can be hired to carry out any specialised tasks.

Token Liquidity will be locked for 6 months on a rolling basis. Access will be controlled via a multi-signature wallet held by HT & EG Leadership. Upon unlock, liquidity can only be pulled by both parties agreeing to do so.

HT will be gatekeepers of the contract and carry out all interactions under the supervision of working groups.

We encourage any developer interested in creating software, widgets, charts or adding utility to the token to reach out to the team. The long term aim for new features is to make it publicly accessible so anyone can see, modify and distribute the code as they see fit. This will attract a wider talent pool to the project.

DISCLAIMERS

The whitepaper provides information and material of general nature. You are not authorized and nor should you rely on the whitepaper for legal advice, business advice, or advice of any kind. Do your own research, and consult experts where appropriate.

Information Published in the Whitepaper

You act at your own risk in reliance on the contents of the whitepaper. Should you decide to act or not act you should contact a licensed attorney in the relevant jurisdiction in which you want or need help. In no way are the contributors to the whitepaper responsible for the actions, decisions, or other behavior taken or not taken by you in reliance upon the whitepaper. You are not authorized and nor must not should you rely on the whitepaper for legal advice, business advice, or advice of any kind.

Involvement Risks

The team does not recommend that any cryptocurrency should be bought, sold, or held by you. Do conduct your due diligence and consult your financial advisor before making any financial decisions. By purchasing EG tokens, you agree that you are not purchasing a security or investment and you agree to hold the team harmless and not liable for any losses or taxes you may incur. You also agree that the team is presenting the token “as is” and is not required to provide any support or services. You agree that by purchasing or exchanging EG tokens you may not claim any tax, fee, reward or any transaction or activity from EG, nor any of the EG team members, nor any other third-party. Any functionality of the EG applications, the EG Token as well as the EG Project mentioned within the present whitepaper is of purely technical nature and not related to any legal claim of an EG token holder.

Compliance with Tax Obligations

The team does not guarantee compliance with any country across the world. Always make sure that you comply with your local laws and regulations before you make any purchase.

No Warranties

The whitepaper is provided on an “as is” basis without any warranties of any kind regarding the whitepaper and/or any content, data, materials, and/or services provided on the whitepaper. EG reserves the right to edit this whitepaper at any time.

Limitation of Liability

Unless otherwise required by law, in no event shall the contributors to the whitepaper be liable for any damages of any kind, including, but not limited to, loss of use, loss of profits, or loss of data arising out of or in any way connected with the use of the whitepaper.

Future Statements

There may be matters in this whitepaper that are forward-looking statements. Such statements are subject to risks and uncertainty. Participants are cautioned not to place undue reliance on these forward-looking statements. The actual results or events that transpires afterwards may be different from what is implied here. The team shall not guarantee the accuracy of the forward-looking statements outlined in this whitepaper.
